

REGENT IS NOW RULING CHINA

Prince Chun Resents Interference From Dowager at Grand Council.

PROPOSES TO GO IT ALONE

EDICTS ISSUED WHICH CONTAIN NECESSARY WARNING.

Peking, Nov. 20.—It is becoming increasingly evident that Prince Chun, the regent, is taking matters of government into his own hands and that he resents any interference from the dowager empress, Yehonala, or the members of the grand council.

A vigorously worded edict issued by the regent today in the name of the emperor sets forth that his authority was received from the late dowager empress, and commands obedience to him. It says in part:

"All imperial clansmen are ordered to give a greater degree of obedience than others. This is for the effect of the example. Disobeying princes and officials will be dealt with without leniency. Our purpose in this is to fulfill the command of the late dowager empress and to satisfy the people."

Some Disension.

The wording of this edict indicates the existence of disension in the imperial family, and the disposition to take matters into his own hands is indicated by other reports from the palace regarding the prince regent.

He already has been likened to Prince Kung, who was regent in the reign of Fung Chin. The regent, it is said, has been advising with Yehonala, the dowager empress, and his consultations with her are becoming more and more perfunctory. He is reported to have arrogated to himself the imperial prerogative, and the phraseology of his edict today bears out this assumption. Furthermore, his manner with the members of the grand council is growing more summary every day. He now gives his opinions to the councilors in the form of orders.

Warning to Rebels.

The second edict issued today is directed against the revolutionaries. It is in part:

"Two misfortunes have befallen the country, but in accordance with the arrangements effected by the late emperor and the late dowager empress, order prevails in the empire. Foreign treaties will be observed and the countries in sympathy with China are making their intercourse more intimate. It is a fact, however, that in these recent days, the revolutionaries have tried to invade the interior. These men must be severely dealt with, and all officials are hereby ordered to search and summarily punish them wherever found. These officials will be properly rewarded."

In view of the impression in Peking that unusual tranquility exists throughout the empire, this second edict is not unexpected.

The ceremonies that are being conducted

at the palaces are bringing increasing crowds.

The functions occur morning and evening. The Dahia lama of Tibet, attended by the members of his suite, officiated this morning at the Tibetan religious ceremony of prayer before the coffin of the emperor and empress. Among those present at this ceremony were the Mongol princes and officials in Peking. On account of the court mourning, the departure of the Dahia lama has been indefinitely postponed.

The army maneuvers in the Yangtze valley begun today, five divisions participating.

TEST OF AUTO-SUGGESTION

Indiana Man Proposes to Count a Number of Oranges Without Seeing the Fruit.

New York, Nov. 20.—Attracted by the \$5,000 offer of the Metropolitan Psychological society of this city to the person who could count a number of oranges without seeing them, a man in Oakland City, Ind., comes forward with the suggestion of using a test of auto-suggestion and claim the money.

Dr. L. S. Truister of the Indiana town has written to the society, telling of the claims of the man, for whom he stands sponsor, saying that he is ready to count the oranges when information as to their location is supplied. Where they are makes no difference, but he must have them located before proceeding.

To add interest to the test he proposes to do the counting while asleep. "The society has replied to the offer, requesting that a number of preliminary tests be gone through, to determine the subject's powers and good faith in the matter. Hundreds of offers to try for the \$5,000 are received by the society daily."

SLENDER PLURALITY.

Taft Carried Missouri by 1,026 Votes According to Returns.

Jefferson City, Mo., Nov. 20.—William H. Taft carried Missouri by a plurality of 1,026 according to the tabulation of the official returns made by Governor Folk today.

The tabulation, however, was made only on the first election, and there is a possibility that this figure may be changed somewhat as regards other elections whose vote will be cast up tomorrow. The vote for the first election follows:

Taft, 246,915; Bryan, 245,889; Debs, 15,388; Chaffin, 4,222; Higgen, 397; Watson, 1,155; Preston (Socialist-Labor), 897.

On the face of the official returns, including precinct corrections, Jacob F. Gmelich, Republican, was elected lieutenant governor by 30 votes. Other minor Republican candidates were defeated. This vote does not include amended returns.

The legislature must cast up the official vote, declare what returns shall be counted and the result. The lieutenant governor is the only office in doubt.

The contested vote on governor follows: Hadley, Republican, 255,322; Cowherd, Democrat, 249,623. Hadley's majority, 5,699.

DEMOCRATIC CLUBS.

Chairman of the National League Sees No Reason to Be Cast Down.

New York, Nov. 20.—Colonel William C. Lillier, chairman of the National League of Democratic Clubs, in a statement issued here tonight calls for a meeting of representatives of all the Bryan clubs and Democratic organizations throughout the country to be held at Washington, Dec. 8, 9 and 10 next. It is the purpose of the league to maintain intact the organization now existing and to strengthen the league so as to eliminate the work of reorganization at the beginning of each campaign.

"The Democratic party, while disappointed over the result of the election, has cause for much elation," said Colonel Lillier. "The party is more organized than at any time since 1892. Its recent defeat has not dampened the enthusiasm of its members, but has awakened them to proper organization necessary. The organization of clubs will be pushed everywhere from now on."

MONEY FROM LANDS.

Utah Has Credit of Seven Thousands From Government.

The governor yesterday received a letter from R. S. Person, auditor of the United States, notifying him that the state of Utah has money coming to it as its share of the proceeds of lands. The amount which the auditor says has been certified to the treasurer is \$7,022.82. This is 5 per cent of the net proceeds of the sales of public lands in the state during the fiscal year ended June 30, 1908. For this amount a warrant is promised, will be sent in care of the governor.

AGED MOTHER IN COURT.

Boy's Misdeeds Bring Deep Sorrow Upon Mrs. Thompson.

The preliminary examination of Henry Thompson, the youth who was caught last week in the act of robbing a residence, and who later confessed to the police his complicity in six other crimes, was postponed from yesterday until today, when the hearing will be held before Judge Diehl. The widowed mother of the boy was in the court room yesterday, and her fortitude was not sufficient to hide the deep sorrow which the revelation of her son's erring ways has brought upon her. Her piteous, appealing look and tear-stained cheeks, with the grief of the sleepless nights penciled under the eyes, created a wave of sympathy in the court room for the aged mother.

TINTIC ORE SHIPMENTS.

(Special to The Herald.)

Eureka, Nov. 20.—The week's ore shipments:

FRENCH CRUISER ON ROCKS.

Alajaccio, Corsica, Nov. 20.—The French cruiser, Conde, ran on the rocks off the Corsican coast today during a heavy storm and her position is critical. There was no loss of life. The accident occurred during the maneuvers. As soon as the plight of the Conde was seen, the other warships that were near by approached and aided in the rescue of the Conde's crew. Efforts to pull the Conde off the rocks were unavailing.

The Conde is a cruiser of 10,000 tons displacement. She had a complement of 515 men.

STRANGER TRIES TO KILL SELF

Man Registered as W. C. Rose of Denver Takes Laudanum With Suicidal Intent.

MYSTERY IN HIS MOTIVE

HOVERS BETWEEN LIFE AND DEATH AT HOSPITAL.

One of the most unusual cases of attempted suicide to come to the attention of the police for many years occurred last night, when a man, to whose identity the only trace that can be found is the name W. C. Rose of Denver, was found lying in a room in the Elko hotel, the victim of laudanum self-administered. When taken to the emergency hospital the man seemed to be in the last throes of death, but after three hours of unceasing labor on the part of Police Surgeon Samuel C. Paul, Dr. P. R. Steele and others, the condition of the man was apparently unchanged. It was considered best then to remove him to St. Mark's hospital, from where it was reported at an early hour he was still hovering between life and death.

The man's past life, so far as could be learned last night, is a complete mystery. He appeared at the Elko hotel Thursday evening between 8 and 9 o'clock and asked for a room, paying 50 cents for the night's lodging. He registered as W. C. Rose, Denver, and immediately went to his room.

Last night about 6 o'clock the Japanese in the hotel reported to the manager that the room occupied by Rose the previous night was still locked from the inside. With a pair of nippers the key was turned and the door opened. The first sight to greet those entering the room was Rose lying on the bed in an unconscious condition, with an empty two-ounce laudanum vial by his side. The police were hastily summoned and also the county physician.

The appearance of Rose indicates his age at about 60 years, and that he has followed mining. He is about 5 feet 10 or 11 inches in height, has a slight but robust frame, and gray hair, moustache and beard. At the hotel he was absolutely uncommunicative, simply asking for his room, and retiring without a word. He had evidently spent his last coin in the purchase of the laudanum and his chosen deathbed. His clothing, when searched, contained neither money nor a scrap of paper, the only contents of the pockets being a pair of glasses, a comb and a toothbrush. That he has followed outdoor labor during the past

summer is shown in the bronzed face and forearms.

At the emergency hospital every known antidote for the opiate was used, and the electric battery applied in the endeavor to arouse him. The restorative treatment was continued at the hospital.

WAS DELIRIOUS WITH ECZEMA

On Chest, Back, and Head—Pain, Heat, and Tingling Were Excruciating—Nerves in Exhausted Condition—Sleep Badly Broken.

CURE BY CUTICURA SEEMED LIKE MAGIC

"Words cannot express the gratitude I feel for what Cuticura Remedies have done for my daughter, Adelaide. She is fifteen years of age, and had never had anything the matter with her skin until four months ago, when a eruption broke out on her chest. The first symptom was a redness, and then followed thickening and blisters, which would break and run matter. I took her to a doctor, and he pronounced it to be eczema of a very bad form. He treated her, but instead of being checked, the disease spread. It showed itself on her back, and then quickly spread upwards until the whole of her head was affected, and all her hair had to be cut off. The pain she suffered was excruciating, and what with that and the heat and tingling her life was almost unbearable. She became run down in health, and at times was very feverish, languid, and drowsy, and occasionally she was delirious. Her nerves were in such a low state that she could not bear to be left alone. In spite of the cold weather she would insist on having her bedroom window open, and would lean out on the window-sill. She did not have a proper hour's sleep for many nights. The second doctor we tried afforded her just as little relief as the first, and I really do not know what we should have done if we had not read how Cuticura cured a similar case. I purchased Cuticura Soap, Cuticura Ointment, and Cuticura Pills, and before the Ointment was three-quarters finished every trace of the disease was gone. It really seemed like magic. Her hair is coming on nicely, and I still apply the Cuticura Ointment as I find it increases the growing wonderfully. Mrs. T. W. Hyde, 1 Ongar Place, Brentwood, Essex, England, Mar. 8, 1907."
